This is an application for The Dialogue Project's Youth Dialogue Corps. Accepted applicants will participate twice a month for 4 – 5 months with other youth from Bushwick to Bay Ridge, Flatbush to Coney Island. In after school or weekend workshops we will learn dialogue skills through spoken word, music, theatre and visual art. With 10-14 others we will create community dialogue and action projects. There is a small stipend if you finish the program.

We will travel to each other's neighborhoods and identify issues that affect our lives. Together we will learn how to transform conflict and create possible solutions through discussion. We will talk about our differences, challenge stereotypes and tackle problems with new friends from outside of our own communities.

**Application deadline: Monday February 6' 2012. The program will start in March 2012.**
